RE: To whom it may concern.

We have used A B Welding Services, for a variety of projects from small structural steel frames, disabled ramp handrails, and pre fabricated one off's.

In the 10 Years we have worked together we have developed a good working relationship. They are always competitive and return quotes at tender stage.

The quality of work is always of a high standard, delivered within the time scales given.

I wouldn't hesitate in recommending them to any other business, and will continue to employ them for years to come.

Yours faithfully
